Anand Babu P

Azure Cloud Platform & AI Engineer

Bengaluru, India | +91 95387 27755 | anbu143dude@gmail.com
LinkedIn | anbu143dude.github.io/Portfolio/

Professional summary

Senior DevOps Engineer focused on Azure cloud platforms and AI-enabled engineering. Delivered 50 DevOps and infrastructure stories at VDart Digital. Earlier automation reduced provisioning from seven days to 30 minutes and manual deployment time by 70%. Experience includes Terraform, AKS, secure CI/CD, self-service platforms, MCP tools and Azure AI Foundry integration support.

Technical skills

Cloud and containers

Microsoft Azure, Azure Kubernetes Service (AKS), Kubernetes, Docker, Azure Container Apps, App Service, Functions, Azure Container Registry (ACR), Virtual Machine Scale Sets (VMSS).

Infrastructure and delivery

Terraform, Azure Bicep, Packer, Azure DevOps Pipelines, GitHub Actions, Git, YAML, continuous integration and continuous delivery (CI/CD), Liquibase.

Automation and operations

Python, PowerShell, Bash, Linux, Windows, macOS, Azure Automation, Azure Update Manager, Azure Monitor, Log Analytics, Kusto Query Language (KQL).

Security and AI enablement

Key Vault, managed identities, role-based access control (RBAC), Azure Policy, Microsoft Sentinel, private endpoints, DNS, Model Context Protocol (MCP), OMNI Gateway, Azure AI Foundry agent support.

Professional experience

VDart Digital | Client: ALDAR

Senior DevOps Engineer | Oct 2025 - Nov 2026

- Delivered 50 DevOps and infrastructure stories; automated self-service onboarding and demonstrated Azure DevOps portfolio scanning and generation integrated with Vibe Portal.
- Built and demonstrated Azure DevOps MCP tools through OMNI Gateway and an Azure Container Apps chat interface for conversational DevOps workflows.
- Supported Azure AI Foundry agent integration and MCP profiles, including APIM and OMNI Gateway connectivity for AI-enabled DevOps demonstrations.
- Enhanced onboarding with a chat interface and developed AI-agent integration for AKS and Terraform workflows; integration remained in development at 70% completion.
- Developed reusable Terraform modules for AKS, Container Apps, App Service, Functions, VMSS, ACR and load balancers with private connectivity.
- Engineered Azure DevOps YAML pipelines with PR validation, security scans, coverage checks and release approvals across development, QA, UAT and production.
- Implemented Liquibase database migrations and PowerSync deployment templates; supported production promotion, UAT load testing, PostgreSQL replication and deployment slots.
- Built Windows/macOS pipelines for signing, notarization, Intune and over-the-air delivery, including checksums, release tags and download summaries.
- Implemented Sentinel log forwarding, CSOC-to-Jira automation, customer-managed-key disk encryption and self-healing controls; maintained identity, secrets and network security.
- Built Azure DevOps administration utilities; maintained Packer images, VMSS agents and runtime upgrades. Troubleshot AKS DNS, registry authentication, application startup and private endpoints.

Professional experience continued

KPIT

Senior Technical Leader, Azure Cloud | Jul 2024 - Jul 2025

Built and deployed Azure infrastructure and applications on Azure Kubernetes Service (AKS) for a vehicle infotainment system using Terraform and reusable infrastructure modules. Supported the migration of infrastructure deployments from Azure Bicep to Terraform and code repositories from Azure DevOps to GitHub.

Kyndryl | Bengaluru

Lead II, Infrastructure Specialist | Sep 2020 - Jul 2024

Customer Innovation team: enterprise Azure and hybrid-cloud automation, solutions architecture and development.

- Automated VM and AKS provisioning with PowerShell, Azure Bicep and Terraform. Integrated approved ServiceNow requests with Azure DevOps and GitHub Actions, reducing provisioning from seven days of manual effort to 30 minutes.
- Led deployment and patch-management tooling that reduced manual deployment time by 70%; automated 35+ VMs from spreadsheet configurations, including post-build activities.
- Built reusable automation foundations using Storage, Log Analytics, Logic Apps and Automation Accounts. Implemented hybrid patching with pre-checks, backups, sequential execution, owner approvals and post-checks.
- Developed KQL and PowerShell backup reports and approval-based cleanup of unused disks and obsolete restore points to support operational visibility and cost optimization.
- Engineered AKS provisioning and autoscaling, VMSS, networking and load balancers; supported ExpressRoute and Azure Stack HCI onboarding. Delivered monitoring, patching, compliance setup and operational handovers.

Earlier experience

Ahana Systems and Solutions | Senior System Administrator | Jan 2019 - Sep 2020

Tecknodreams Pvt Ltd | Senior Technical Consultant | Feb 2018 - Jan 2019

HIKAL Ltd | Officer IT | Jul 2014 - Feb 2018

Techpool India Solution | Senior Desktop Support | Jan 2010 - Apr 2014

Wipro InfoTech franchisee assignment; clients included Swiss Re and Azim Premji Foundation.

Amatra InfoTech Pvt Ltd | Trainee Service Engineer | Jan 2009 - Jan 2010

SwifTech India | Service Engineer | May 2008 - Dec 2008

Education

Bachelor of Computer Application: Dr. C.V. Raman University | 2016 - 2018

Diploma in Electronics and Communication: Nadgir Day and Evening Polytechnic | 2004 - 2008

Certifications

AZ-400 | Microsoft Certified | Designing and Implementing Microsoft DevOps Solutions

003 | HashiCorp Certified | Terraform Associate

AZ-500 | Microsoft Certified | Azure Security Engineer Associate

AZ-301 | Microsoft Certified | Azure Architect Design

AZ-300 | Microsoft Certified | Azure Architect Technologies

AZ-103 | Microsoft Certified | Azure Administrator Associate

AI-103 | Microsoft Certified | Azure AI Apps and Agents Developer Associate

MNA | Master in Network Administrator

Awards

Kyndryl Power of Wins | Sep 2022; Wipro On Spot Award | Jul 2011
